Corrugated protection pipes

TECHNICAL SPECIFICATION

Subject

Corrugated protection pipes

Product characteristics

The product complies to BRL 5610 Plastics piping systems of PE-X/Al intended for heating installations: radiator connections, BRL 5606: Plastics piping systems of PE-X intended for heating installations: radiator connections and BRL 5611: Plastics piping systems of PE-RT/Al intended for heating installations: radiator connections.

Specification

The dimensions of the pipe in the table below are part of this certificate.

Nominal outside diameter (mm)	Wall thickness (mm)
20	25
23	29
29	35

Colour: black, blue, red

Marking

The products shall be marked with the KOMO[®] mark.

Protection pipes

The minimum required marking on the protection pipes shall be:

- KOMO (or KOMO[®] word mark);
- certificate number of the protection pipe;
- the manufacturer's name, trade name or logo.

The realization of the marks is as follows: clear, durable and indelible at intervals of not more than 2,5 m.

Logistics

Production and assembly of the system is laid down in the annex of the certification agreement.

APPLICATION AND USE

The protection pipes have to protect the medium pipes for radiator connections in case the medium pipes are embedded.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Plast Line Liliana Dobrzynska
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
